

mother and baby

WIELAND

Known for anticipating the needs of professional caregivers, families and patients, Wieland provides comfortable and innovative solutions with thoughtful options and accessories.

We've specifically designed patient room furniture considering evidence-based research. Research confirms patient outcomes improve when families are present and participate in the recovery process.

All of our patient room furnishings are offered with easily cleanable materials, including solid surface, powdercoated metal, urethane, thermoform and nylon.

To learn more about the real benefits Wieland offers for mother-baby applications, contact your rep or visit wielandhealthcare.com.

allay® sleep sofa + amigo table

Comfortable for new dads and relatives alike, with an array of options, allay offers ottomans, storage drawers, a trundle bed and other features rarely found in patient rooms. One easy pull with the integrated handle and the sofa changes to the sleep position. Available in several lengths, and with a soft top arm option that extends the sleep surface 8 inches, allay is a popular solution for mother-baby suites of any size.

The amigo table pairs seamlessly with the allay sleep sofa, providing a pull-up table surface with cantilevered top. Amigo is available in round or square top variations.

sleepToo
a virtual family room™

sleepToo® sofa

sleepToo occupies only 20 square feet of space while delivering the benefit of family interaction. Celebration dinners are effortless with the adjustable table where dad can also work or visit with guests. The sleep surface quickly and quietly converts with a pneumatic assist. And family or friends conveniently charge phones with the power option after sharing the news of the joyful addition.

sleep chairs

Wieland sleep chairs conveniently transition from chair to sleep position ensuring a cozy, restful stay for any overnight guest when space is tight. Our sleep chairs have a chaise lounge position for ultimate comfort and relaxation, and are available in three widths.

accord™

capital

versant

motion chairs

Smooth and gentle, Wieland motion chairs soothe and ease the new baby back to sleep. The optional rear casters aid in safely moving chairs anywhere in the patient room. Ottomans are also available.

hale

trace

wedgewood

laurelwood

recliners and gliders

amari, accord™ or cove recliner

Another option for a peaceful overnight stay, Wieland recliners' many accessories include IV poles, footrests, pushbars and transfer arms. Moving patients safely becomes a breeze.

capital or versant glider

An ideal choice for a nursery, Wieland gliders' gentle rocking motion, seamless styling, and hidden locking mechanisms make late night feeding a little easier.

guest & patient chairs

perk, plyfold + smartrail®

Perk and Plyfold add temporary seating for visitors offering “congratulations”, then can be tucked away behind the door on the wall to save valuable space for staff. Available in wood or engineered resin to bolster infection prevention efforts.

hale and trace

A fresh, modern look, Trace and Hale patient chairs' slim back and metal frame are designed for comfort and cleanability. The ottoman nests neatly beneath the seat when not in use.
